

County Codes

Previously each court defined local counties for display in case opening. Now counties for all states are in the database. When opening a case, the county list automatically displays all counties of the state entered in the state field. Users must select the county of the debtor's residence.

The county format has been changed to include the two-letter state abbreviation. The five digit number following the county name is an internal county number and not a zip code.

ALWAYS be sure to select the Debtor's correct county of residence – this determines the case's court location and case number.
