

Query

Query by Name

When searching by name, additional information is now displayed on the results page to provide more detail for selection. A row of information is displayed on the screen for each case in which that person is involved, as shown below:

One Character Name Query

In previous versions of CM/ECF, two characters of the last name were required for a name search on the Query screen, making it impossible for a user to search for a person with a single-character last name. With release 4.1 – 4.2, if a single character is entered into the last name field, it is evaluated for the exact name match only. A message appears on the screen informing the user that only exact matches will be found, as shown below:

View Document

There was previously no way to view a document without first viewing the docket report. Now a "View Document" link on the Query menu allows you to enter a document number in the case and view the document without having to run a docket sheet. This feature will enable PACER users to eliminate charges for first accessing the docket report.

Users must know the document number to access the PDF document in this manner.

Query Billing

A warning message has been added to the Query search screen to remind PACER users that there is no 30-page PACER billing cap on the information returned from these searches.

The screenshot shows the ECF Query search interface. At the top, there is a navigation bar with the ECF logo and menu items: Bankruptcy, Adversary, Query, Reports, Utilities, Search, and Logout. Below the navigation bar, the word "Query" is displayed. A red-bordered box highlights a warning message: "Warning: you will be billed for the total number of pages (this report is not subject to the 30-page limit on PACER charges)." Below the warning, there is a "Search Clues" section with input fields for Case Number, Last / Business Name (with examples: Desoto, Des't), First Name, SSN / ITIN, and Type. There are "Run Query" and "Clear" buttons at the bottom of the search form. A "Windows Internet Explorer" dialog box is overlaid on the search form, containing a question mark icon and the text: "This search will return only matches with single-character last names. Continue?" with "OK" and "Cancel" buttons.
